Foreword

This 8th Asia Pacific International Conference on Environment-Behaviour Studies, AicE-Bs2018Sheffield, managed to attract an overall total of 35 numbers of approved abstracts, from six countries.

Majority of the abstracts (22 numbers or 63%) were contributed by Malaysia. This was followed by Japan (7; represented by nationalities from China, Indonesia, Japan, Kenya, Russia, USA, Turkey), UK (3) and 1 each from Indonesia, Iran, and Nigeria. The abstracts approved were simply grouped generally under 14 sub-categories, although quite a number could have been easily placed under more than one category. The top two categories in order of popularity involved the following environments: - Educational / Learning Environment and Health / Healing Environment (5 each); and Hospitality /Tourism Environment, and Urban Psychology / Urban Environment (4 each).

The abstracts were finally transformed into 23 approved full papers. Majority of the full papers (13 numbers, or 57%) were contributed by Malaysia. This was followed by Japan (5), UK (2), and 1 each from Indonesia, Iran, and Nigeria. The full papers approved were simply grouped generally under 10 sub-categories, although again, quite a number could have been easily placed under more than one category. The top three categories in order of popularity involved the following environments:- Health / Healing Environment (5), Hospitality /Tourism Environment (4), and Educational / Learning Environment and Residential Environment (3 each).

The Association of Malaysian Environment-Behaviour Researchers (AMER), the main organiser, with the co-organisers, ABRA and cE-Bs, FAPS, UiTM, and together with our Co-host, congratulate all contributors for making the conference a tremendous success!

Hopefully this conference will inspire and encourage more researchers to participate in our forthcoming serial conferences.

Thanks again for your continuous support as always, and hope for an enlightening conference!
