Acknowledgement

This 2nd ABRA International Conference on Quality of Life, AQoL015Izmir, was made possible by many persons.

Deepest appreciation to our Co-Host, the Department of City & Regional Planning, Faculty of Architecture, Dokuz Eylul Universitesi, Izmir, Turkey which had ensured the smooth running and success of the conference.

Many thanks also to the more than 60 International Scientific Committee (ISC) / ajE-Bs & jABs Editorial Board Members, represented from 22 countries worldwide, for their continuous commitment and dedication for reviewing the conference papers.

Last but not least, our gratitude to the Distinguished Keynote Speakers, Abstract Contributors and Paper Presenters for disseminating their works and findings at this most memorable conference. Their continuous support in participation endorses the relevance and sustenance of more successful forthcoming conferences.

Thank you all !

Foreword

The Annual Serial Landmark International (ASLI) conferences on QoL for 2015, **AQoL 2015Izmir** with the "Quality of Life 2" as the main theme managed to attract an overall total of 43 numbers of approved abstracts. Those finally transformed into 30 approved full papers for this Proceeding. Two of the papers declined at the last minute.

Majority of the papers (64%) were contributed by Malaysia. This was followed by Turkey (17%), Iran (13%) and 3% each from Indonesia and Nigeria. The full papers approved were simply grouped generally under 12 sub-categories, although quite a number could have been easily placed under more than one category. The top four categories in order of popularity involved the following environments:- Urban Environment (27%), Community Environment (13%), and 10% each for both Health / Healing Environment, and Residential Environment.

The Association of Malaysian Environment-Behaviour Researchers (AMER), the main organiser of AQoL2015, together with the Co-Chair, ABRA Turkey, and the Co-Host, Department of City & Regional Planning, Faculty of Architecture, Dokuz Eylul Universitesi, Izmir, Turkey, congratulate all contributors in making the conference a tremendous success!

Hopefully this conference will inspire and encourage more researchers to participate in our forthcoming serial conferences to be held annually. The increase in participation shall be most highly likely as the Conference Proceedings shall be published in Elsevier's *Procedia Social and Behavioural Sciences* accessible online in www.ScienceDirect.com, which aimed to be indexed in SCOPUS.

Thanks again for your continuous support as always, and hope for an enlightening conference!

Prof. Dr. Mohamed Yusoff Abbas

Chair, AQoL2015Izmir

President, Association of Malaysian Environment-Behaviour Researchers (AMER), 2012-2016.

President, Association of Behavioural Researchers on Asians (ABRA), since 2014.

09 December 2015

About the Conference

Background

Asia is the world's largest and most populous continent with a population of about 4.3 billion people in 2013. Hosting about 60% of the world population, and coupled with a high growth rate, it is imperative that Asia establishes an international research organisation which specifically focus on the well being of the Asian communities, living in both the Asian and non-Asian countries.

Hence, the establishment of ABRA (Association of Behavioural Researchers on Asians), officially formalised on 20th October 2014, with its headquarters in Shah Alam, Malaysia. AMER (ABRA*Malaysia*) shall be the permanent secretariat for ABRA*worldwide*, currently represented by Egypt, Iran, India, Indonesia, Malaysia, Taiwan and Turkey.

To mark the establishment of ABRA*worldwide*, the maiden international conference AQoL2014 (ABRA International Conference on Quality of Life - was held in Istanbul, Turkey, from 26-28 December 2014. The 1st ABRA*worldwide* Board Meeting was also held in conjunction with the conference. To enhance the QoL conferences further, the AQoL shall be the sister conference with the more established annual AicQoL. Both back-to-back QoL conferences shall form the ASEAN-Turkey ASLI (Annual Serial Landmark International) Conferences on QoL.

The first part of the ASEAN-Turkey ASLI Conferences on QoL2015 - the AicQoL2015 was held in Jakarta, Indonesia from 25-27 April 2015. The second part shall be the AQoL2015Izmir, Turkey from 09-13 December 2015.

ASLI QoL conference themes address *Quality of Life* issues, which particularly affects the Asia/Pacific region. The Proceedings shall be published and accessible online in Elsevier's *Procedia Social and Behavioural Sciences* in www.ScienceDirect.com, which aimed to be indexed in SCOPUS.

Selected conference papers, condensed, shall be published in either *ajE-Bs* or it's sister journal *jABs* forthcoming editions, and also for potential book chapters. Both the international journals are also due to be sent to SCOPUS for evaluations, to be indexed.

AQoL2015Izmir

“Quality of Life 2”

Quality of life (QoL) is defined as “the general **well-being** of individuals and societies” and its related to variety of contexts, including the fields of health, preventive medicine, psychology, sociology, architecture, city planning and urban design. QoL has been (and will be) assessed in relation to various domains, including identity, belonging, creativity, wellbeing, belief and ideas, ecology, culture and physical environment.

Research have been focused on identifying the indicators of QoL and defined indicators related to employment, cultural and recreational activities, social necessities, education, technological improvements, health and physical environment. Such indicators involve both subjective and objective measures. Although voluminous studies have been held, no clear findings have been revealed (as expected in relation to its interdisciplinary and wide content). Given that more work are on call to understand the concept of QoL.

The AQoL2015Izmir, contributes to the debate and solutions on the QoL by exploring QoL issues for the whole world population in general, and Asian populations in particular. AQoL2015Izmir aims to encourage collaborative interdisciplinary work by experts from various disciplines including health, psychology, architecture, urban design, city planning and environmental psychology, etc.
